

# UNMANNED CANADA 2019 CONFERENCE & TRADESHOW

## INNOVATING CANADA BY AIR, LAND & SEA

Join us at the WESTIN OTTAWA  
OCT. 30 to NOV.1, 2019

Unmanned Systems Canada / Systèmes Télécommandés Canada invites you to join us in the nation's capital for the 17th Annual National Unmanned Systems Conference & Trade Show.

Connect with 400 delegates, speakers & exhibitors across all three sectors of our rapidly growing unmanned & remotely piloted vehicle industry.

Don't miss updates from Transport Canada, industry Working Groups, manufacturers, researchers & innovators in aerial, ground & marine systems.

Register now at [www.unmannedsystems.ca](http://www.unmannedsystems.ca)

## Registration is open for Unmanned Canada 2019!

Join us at the 17th Annual National 'Unmanned Canada' Conference & Trade Show in Ottawa, ON this year. #UC19Ottawa takes place **October 30 to November 1, 2019** at the Ottawa Westin hotel on the unceded traditional territories of the Algonquin Peoples. It's an incredible venue to host Canada's largest national annual industry event for innovators across the unmanned & remotely piloted vehicle industry

- Connect to up to 400 delegates through networking events, B2B sessions, & workshops
- Learn from more than 60 presentations by industry experts, researchers & regulators
- Meet exhibitors from across Canada showcasing new hardware, software & services

**Unmanned Canada 2019: Innovating Canada by Air, Land & Sea** is the premiere event to expand your business network & gather new knowledge about emerging aerial, ground, & marine vehicle technologies. Find clients & suppliers at our trade show & arrange B2B meetings with public & private sector decision-makers.

The #UC19Ottawa agenda includes over 60 speakers from industry, government, & academia. Get insights about Beyond Visual Line of Sight (BVLOS) projects, the impact of Transport Canada's new Remotely Piloted Aircraft Systems (RPAS) regulations, & evolving policies & technologies to enable the safe integration of drones into Canadian airspace. Learn about the research projects, new tools & commercial applications of remotely piloted aerial, ground & marine vehicle systems innovating every sector of global economies.

Breakfast (7:00-8:00 AM), lunch (12:00-1:30 PM) & networking sessions in the exhibitor hall are included. Watch for the #UC19Ottawa event website & app (in August) for details about participants, workshops & activities!
